

Back to the Future Setup SMLD AVP

Loading game on to the hard drive:

All games must be disabled and only Back to the Future enabled. You will only be able to play this game and won't be able to select other games.

Step 1: With the machine off and the cpu door open install Key7 dongle and BTTF loader in USB ports.

Turn the slot on and allow game to be loaded. Follow screen prompts after it is loaded.

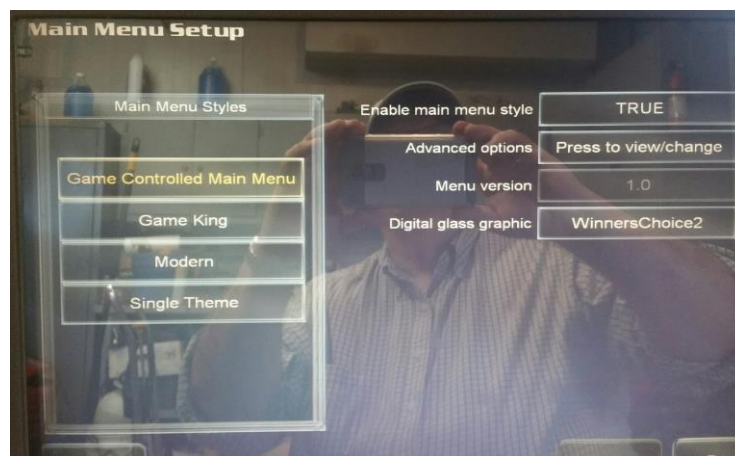

Step 2: Boot machine to game screen. You will get errors upon bootup for the game

Step 3: Install Key7 and allow Setup menu to boot up

Step 4: Choose Setup—Attract—More Games and set screen as shown in the pic--SAVE

Step 5: Choose Setup--Main Menu—Game controlled Main Menu—Select True—SAVE

Step 6: Exit setup menu and remove the Ekey 7. Game should now play
