**Power Plug Case**……

Pin 1 - +12vdc….Pin 11 ATX     Pin 8 – GND……Pin 7 ATX     (OVER to Back of sheet)

TseTse cable pinout.

| 20 pin molex | 9 pin DB9 serial | 8 Pin Molex Power (TseTse) | Power (LCD) |
|---|---|---|---|
| 7 | | 8 | |
| 9 | | | GND (BLK) 9 |
| 8 | 5 | | |
| 11 | | 1 | |
| 12 | | | +12v (RED) 5 |
| 17 | 2 | | |
| 18 | 3 | | |

That is all you need to connect the Tse Tse.  The other pins are topbox switch pins, which are not needed.  You really only need the power (8 pin molex) and the 3 pins for the serial port.
